# HOW20 HOUSE OF WORSHIP AVL EXPO

HOW AVL Expo is designed for worship leaders and church tech teams that are growing, changing, or just interested in learning about how to be more successful in deploying their audio, video and lighting systems. It's where they can come to network, brainstorm and see the latest gear and technology to envision the possibilities for the future.

The event offers 9 workshop classes and scores of brands represented in the Expo area, so it's a great place where church teams can see and learn so much about modern tools for AVL in such a short time. And with each church bringing nearly three people on average, church leaders are seeing value in bringing their teams to get away from the daily grind, get their heads together, gain new ideas, and craft a solid, energized, and focused plan for the future. I hope you'll join us in Gastonia, November 14, 2020 for what promises to be a fantastic day, at an event focused on the tools and technologies that worship leaders and tech teams can utilize to help bring people closer to God.

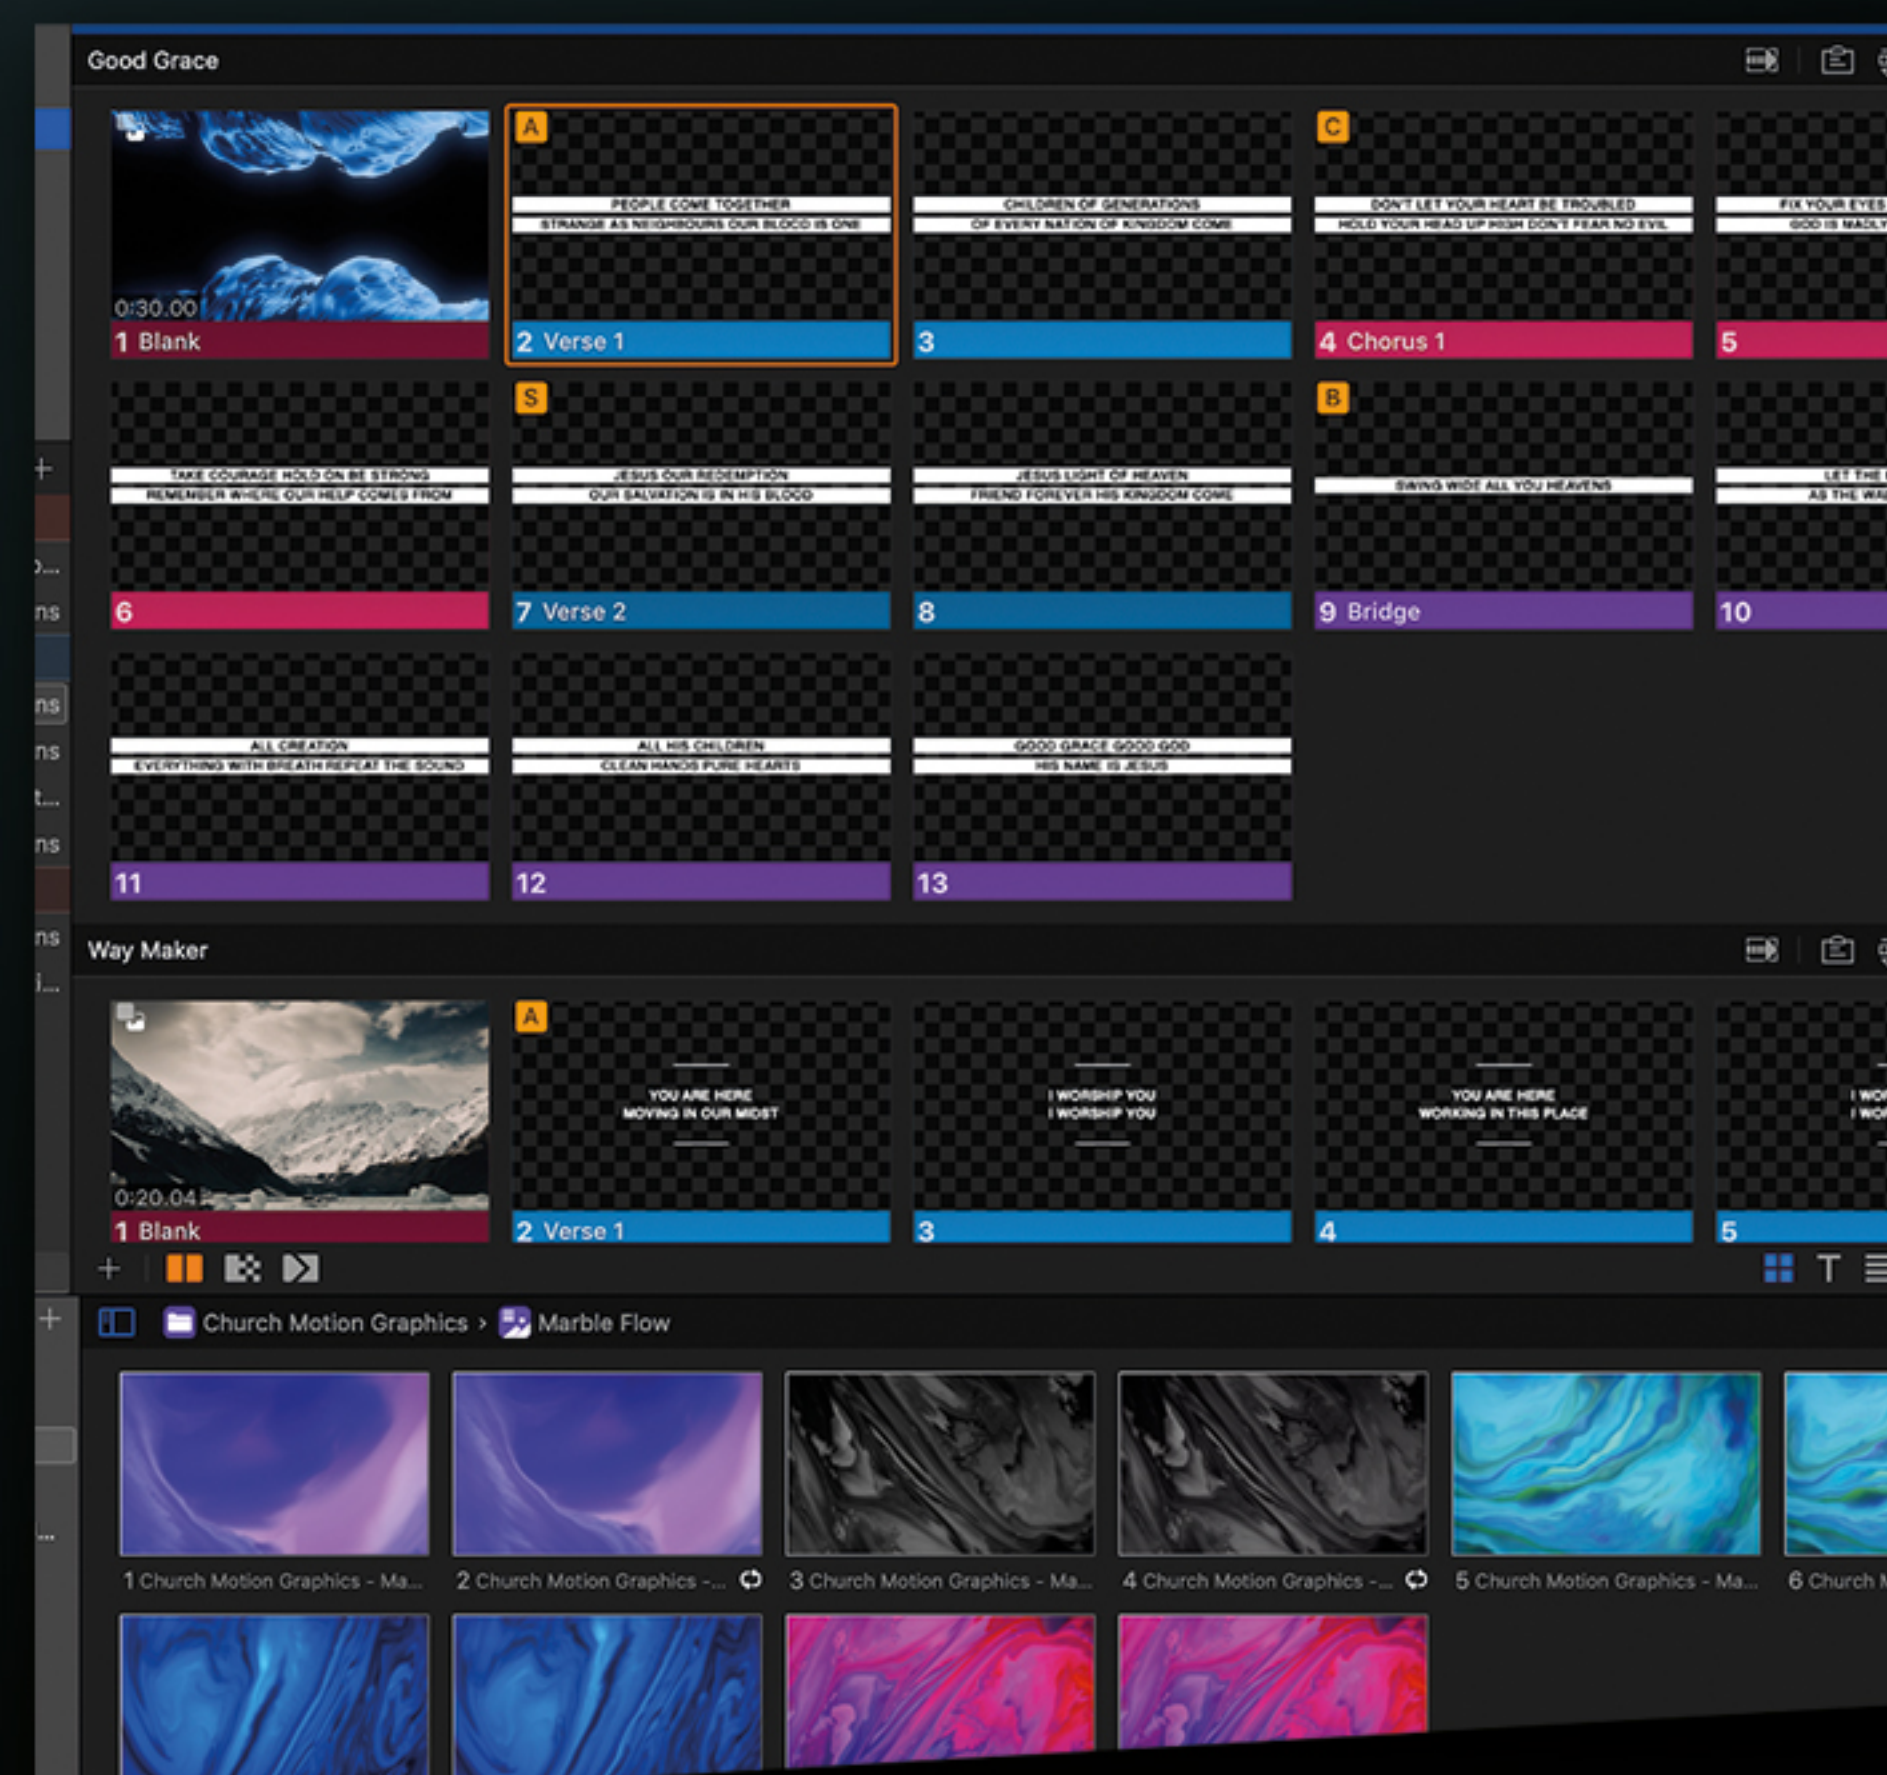

## SATURDAY NOVEMBER 14, 2020

DOORS OPEN AT 8AM SESSIONS START AT 9AM
